Residence

Has consulted two or three physicians & last before presenting herself here, has been treated some three months at the Clinic of the Jefferson Col. under care of Prof. Mutter & Pancoast, for tumor of neck in the thyroid gland. Has been under some of the preparations of Iodine during the past four months, without relief. The tumor now almost double its size when first demanding Medical assistance.

Tumor of the fibrous kind implicating left lobe, istmus, & slightly the right lobe, of gland. moveable. semi-elastic. tender to pressure. producing great difficulty in breathing on assuming recumbent position. & constant impairment of voice. Has indigestion & pain in stomach; dizziness on stooping & raising again, with the appearance of prismatic colors

She is of German origin short

fleshy, well formed & stout,

52 Is reduced in flesh & strength. Has Leucorrhoea, Generally Menstruates regularly, though now from mental or physical excitement is liable to have it appear, & at all times during the last four months with little colour, & it presents watery, with pain, Limbs swollen & pain in ankles.

℞ Ferri Chlor. Dose twenty drops evy six hours.

℞ Plumb Iod ℥i Axung ℥i

Jan. 24/56

Sarah Chambers aged 16 yrs.

Scrofulous Opthalmia

She inherits strumous diathesis from both parents. Conjunctiva much inflamed especially inferior palpebral.

Her eyes have been sore nearly all her life tho' never so much as entirely to prevent vision

Ten years ago she had a scrofulous abscess on her neck which lasted two months Cicatrix strongly marked.

Has pale complexion light hair and has very poor physical development. Looks like a mere child tho' she has menstruated regularly three years.

Treatment.

Observe general hygenic laws. Should take *much* exercise in open air. Have nutritious diet avoiding veal + pork.

Eat a table spoonful of coarse bran every day

℞ Potas. Iodid. ʒi

M. Aqua Font. f℥ii Fussell

Take a teaspoonful 3 times a day 1/2 hour before meals followed by large draughts of water.

(S. Chambers continued)

Local Treatment for eyes

Wash well with castile soap & apply following
R
to conjunctiva night & morning.

℞ Ung. Hyd. Nit Ʒj
Cerat Simp ℥iv
M. F. Ung. E. J.

1/30/56. No improvement in her eyes.
Local Treatment must be changed.
℞ Argent. Nit gr j
Aqua ℥j

paint the conjunctiva 2 or 3 times a day & omit the use of castile soap.

Continue the same constitutional treatment

2/25/56. Eyes well — if they should become sore again use the Argent. Nit.
Constitutional treatment continued

℞ Tinct Iodine f℥i
S Six drops 3 times a day.

Should have plenty of air & exercise.

1/26/56 John Dort 106

Gonorrhea improving.

Hand very much swollen - some appearance of suppurating, fluctuating feel.

Treatment

Apply a small blister to back of hand.

Dress it first with a poultice afterwards

℞ Cerate Resin Comp.

2/2/56 Blister applied as directed, Cist is is broken and fluid infiltrated in tissue over back of hand - Ordered it to be painted with Tinct. Iodid. to produce absorption

Gonarrhea entirely well

2/9/56 Hand still swelled - cure sooner if opened - but will continue former treatment —

Catherine Printergaster.
No. 2 Laughlin's Court.
Spruce St bt. Second & Front.

age 23 years.

Unmarried has not menstruated for the last two years.

Has periodical pain accompanied with swelling of the abdomen; which subsides and returns about every two weeks.

Examination has not revealed much that is satisfactory, bowels being constipated a dose of aloes & myrrh administered.

Further examination to be made hereafter.

1/26/56. Mary Ann Taylor aged 25 yrs.

Derangement of Menstrual Function

Occasional suppression. Has been irregular for more than a year. Pain & tenderness

Constipation & tympanitis of bowels

Much febrile excitement, head ache.

Has been a widow four years.

Treatment — Take Pil. Aloe Com. two every 3 hours till they operate. Apply small Mustard plasters on Mammary Glands changing location to prevent irritating too deeply & these are to stimulate the ovaries.

Apply cloths wrung out of hot water over the whole abdomen & cover warmly in bed with blankets.

109 Mary Holst aged 25 yrs.

Residence No 538 S. 5 St. above Federal.

1/26/56 Case Obscure - She has a constant heavy dull pain in the lower part of the abdomen just above the pubes & over the bladder - No tenderness to pressure - Nutritive, menstrual & urinary functions normal - Tongue & pulse in good condition

She has strabismus - When three years old had severe illness lasting four months - Patient attributes her disease & affections of her eyes to medicine administered then - Treatment

Croton Oil to abdomen

Other treatment deferred -

1/30/56 Applied croton oil as directed with little benefit - Case still obscure - Her general health good Never had rheumatism - Pain may continue from habit - Treatment Alterative

℞ Potass Iodid ʒij

Aq. Font f℥iv E.T.

S. Teaspoonful 3 times a day -

Continue the croton oil externally.

2/9/56 Still thinks pain continues from habit Continue treatment only stronger solution -

1/26/56 Reese Williams Aged 45 –

Chronic inflammation of uvula tonsils fauces & pharynx. General health good

℞ Treatment

Argent. Nit. gr v

Aqua Font. ℥ss.

M. F.

Apply with a brush once a day.

2/2/56 Much improved. continue prescription

1/24/56 Rosa Young. Aged 5 years-

Porrigo.

Has had an eruption on her head four months

Treatment cut off the hair and after the removal of the scabs by use of poultice

℞ Ung Hyd. Nit. ℥i
Cerate Simp ℥ij
M. F. Ung E. F.
Apply night & morning

1/30/56 Scalp much improved. continue the Ung.

Hydrocephalus

Fontanells entirely closed. Her head is large and irregularly formed. The left side being larger Has much headache & bad breath She is restless during sleep lively & precocious and has an inordinate appetite. She has always had Strabismus & spells of falling insensible.

Treatment

℞ Tinct Iodid. f℥ss E. F.

S. 2 drops 3 times a day in sugar & water.

Give her plain food restricted in quantity

Discourage all intellectual developement

Also- Apply a small blister behind each ear.
